Applications

CAUTIONS

- Please read the product specification carefully first to confirm that the working environment is in line with the condition on the specification before it is used.
- Please confirm the input voltage and frequency before use.
- The light must be installed by professional personnel.
- If the power cord and case of the products are damaged, it will be regarded as disqualified product and should not be used.
- Dangerous high voltage. Non professional personnel should not repair.
- If external soft cable or wire of the product is damaged, the wire should be replaced by manufacturer or service agent or personnel with similar qualification to avoid danger.
